INSTRUCTIONS

TURN OFF YOUR SWITCH

FIG.1. Place the wall switch to the "OFF" position.

FIG.1
WALL SWITCH

FIG.2. Place either the main (Master) switch to "OFF" position, cutting off power to your entire home OR turn off the individual switch that provides power to where the fixture will be installed.

FIG.2
BREAKER PANEL

FIG.3. Place either the main (Master) switch to "OFF" position, cutting off power to the entire home OR unscrew the fuse that provides power to where the fixture will be installed.

FIG.3
FUSE BOX

Remote Control Functions Guideline

Memory Function: After adjusting the desired color temperature and brightness, please wait at least 30s before turning off the lights to ensure that the driver has remembered your settings. The next time you turn on the lights, you won't have to reset them again.
