

# SHOE CHANGE STOOL INSTALLATION GUIDE

Final effect

- ◆ Please read the instruction manual carefully to understand the precautions during the installation and maintenance of the shoe stool.
- ◆ Strictly follow this assembly manual to operate.
- ◆ Carefully check whether the parts in the box are complete.
- ◆ Assemble on the box, so as not to damage the shoe changing stool and the room floor.
- ◆ Only use a rag or a slightly damp cloth to clean the surface of the shoe changing stool, do not use strong scrubbing.

## ACCESSORIES DISPLAY

Tripod × 4

# START ASSEMBLY

 Wear gloves when installing the shoe changer

Take out the top shelf and place it face down as shown.

Take out 2 flat head screws of the tripod and install as shown in the figure, with the long holes facing upwards.

Continue to take out the flat head screws and install as shown in the figure, with the long holes facing up.

Take out the laminate and the pointed screws to install as shown in the figure, pay attention to the alignment of the holes.

Take out the laminate and fix it with the pointed screws as shown in Fig.

The installation steps are not very simple! Hurry up and decorate your home!
